

EVERCORE

Evercore ISI to Host Ninth Annual Utility CEO Conference, January 12-13, 2023

Jan. 4, 2023-- Evercore (NYSE: EVR) will host its ninth annual Utility CEO Conference in Palm Beach, Florida, January 12-13, 2023.

Evercore's ninth annual Utility CEO Retreat One-on-One Conference brings together more than 30 of the most influential U.S.-focused utilities. The event will provide unparalleled access to the decision makers who will drive the U.S. energy transition and the outlook for solar, wind and energy storage.

Marc Harris, Evercore ISI Director of Research, said, "Decarbonization of the U.S. economy is expected to translate into trillions of dollars in investment opportunity through 2050. Our ninth annual utility CEO conference will feature leading utilities that serve as the pillars of this multidecade-long decarbonization investment opportunity. We have 32 companies attending this year, with the majority represented by their CEOs."

"The Inflation Reduction Act, signed into law August 16, 2022, is projected to double the investment in renewables by the end of the decade. Furthermore, demand for electric vehicles in the U.S. is expected to grow exponentially over the coming years," said Durgesh Chopra, Evercore ISI Managing Director, Power & Utilities. "To address the investment community exploring the rising electric vehicle adoption and its implications on the electric grid, we are excited to have Ford Pro CEO Ted Cannis joining us as keynote speaker for the event."
